

ERASTUS ARTHUR

Accra, Ghana | 059-977-3555 | erastusarthur@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

Kwame Nkrumah University of Science and Technology

Programme: Bachelor of Science, Computer Engineering

Expected May 2028

Academic Standing: First Class

Relevant Courses: Electrical Machines | Basic Electronics | Basic Mechanics | Calculus with Analysis | Algebra | Fundamentals of Electrical Control and PLC Systems | Applied Electricity | C Programming | Communication Systems | Discrete Structures

PROJECTS / ACHIEVEMENTS

- Independently designed and developed a full-stack website for Arthurco Builders, a local business — currently hosted on Firebase and being refined ahead of official deployment (*March 2026 – Present*)
- Developed an IoT-Based Community Security Alert System using sensors and microcontrollers to detect and notify users of unauthorized intrusions in real time (*December 2025*)
- Collaborated on a Python-based student grading system, utilizing external libraries to automate grade calculations and manage records efficiently (*July 2025*)

INTERNSHIP EXPERIENCE

Codveda Technologies | Python Development Intern | Remote

March 2026 – April 2026

- Built a real-time price tracker using the CoinGecko API in Python, delivering live prices and market data for multiple coins via a clean CLI
- Developed a CLI To-Do List app with persistent storage, enabling users to add, complete, and delete tasks reliably across sessions
- Engineered a Word Counter with keyword search, reducing manual document review effort through automated frequency and occurrence reporting

Johnson and Johnson (via Forage) | Robotics and Control Engineer Intern | Remote

January 2026 – March 2026

- Analysed robotic control code to identify performance gaps, applying structured problem-solving to diagnose root causes and recommend improvements
- Implemented data-driven solutions that enhanced system precision, responsiveness, and operational reliability
- Collaborated cross-functionally to evaluate diagnostic findings and propose design enhancements, strengthening overall system performance

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Association Of Computer Engineering Students | Member | KNUST

November 2025 – Present

Robotics Committee

- Delivered microcontroller training sessions to strengthen students' hardware programming capabilities
- Organized departmental robotics competitions, promoting innovation, teamwork, and applied problem-solving

Scholarships and Internship Committee

November 2025 – Present

- Identified and shared scholarship opportunities while supporting students throughout the application process
- Monitored student internship experiences, providing support to promote professional development and successful outcomes

Student-Pastoral Council | Senior Prefect | Akosombo International School

June 2023 – June 2024

- Led a 17-member executive team, overseeing operations and ensuring effective coordination of council activities
- Organized weekly services for the entire student body, demonstrating strong planning and organizational skills

VOLUNTEER ACTIVITIES

- Planned and delivered an introductory programming workshop to promote digital literacy and spark early interest in technology at Bishop Bower's JHS, Accra (*December 2025*)
- Provided one-on-one and group tutoring to high school graduates, helping students strengthen quantitative and verbal reasoning skills (*October 2025 – December 2025*)
- Supported classmates at Akosombo International School academically through structured tutoring sessions, contributing to student understanding and performance (*March 2023 – June 2024*)

SKILLS AND INTERESTS

- Skills:* Python | Microcontroller Programming | Web Development | CAD | Microsoft Excel, PowerPoint, and Word
- Languages:* Fluent in English and Fante | Beginner French
- Interests:* Embedded Systems | Robotics | IoT | Art | Music | Poetry
